

**NEW & UPGRADED FOR 2023!**

**Compact  
Ultra-Quiet  
Design!**

**MiST<sup>TM</sup>2**

MOISTURE INDUCED STRESS TESTER

**InstronTek's MiST 2**, the best asphalt moisture sensitivity conditioning device, upgraded with an ultra-quiet pressure system and a small footprint to fit inside any size asphalt lab. MiST 2 test results can determine both the adhesive and cohesive properties of asphalt mixtures to help alleviate moisture issues in the field. The New & Upgraded MiST 2 is quieter, more compact and user-friendly with advanced features to make the system operate more efficiently.

**MiST2 FEATURES:**

- **Ultra-Quiet Design-** Noise level is drastically reduced using a new innovative pneumatic system... *you can almost hear a pin drop!*
- **NEW! Benchtop Design-** Smaller footprint allows for easy placement in any asphalt laboratory benchtop (30" L x 24" W x 30" H).
- **Lighter Weight-** 3x lighter than the original (163 lbs).
- **Fully Automatic System-** The unit will automatically drain after every test, maintaining a moisture-free environment and increasing reliability. Simply place the samples in the chamber and the machine does the rest.
- **Smaller Unit/Same Capacity-** Conditions: 2- 150mm, 3- 100mm, or 3- Ideal CT asphalt cores.
